Ordering Information

1. Select the contact rating prefix you need (E61-E64).
2. Combine the prefix with the corresponding terminal configuration. For example part number E63-50H will provide you with a gold crosspoint subminiature switch with 0.093" QC terminals and a straight lever with a 0.396" actuation length
3. To order a normally open version simply 'add 1' to the suffix to obtain E63-01H and normally closed 'add 2' for part number E63-02H.
4. To order a E62-50K with 0.110" QC terminals, "add" the new terminal code (-30) to the part number – E62-80K will be the resulting part number for a subminiature switch with 0.110" QC terminals and a roller lever with a 0.326" actuation length.
